### THE NEW FRANCHISE

If a new system of rapid transit through General, reconsider your words. Elevated railroads is to be introduced into the city, why should it not be placed in new bands and not intrusted, as a mocharge of the Manhattan Elevated corporation?

The Elevated roads have been of great benefit to New York. But the managers of the Manhattan corporation have done nothing to deserve public confidence. They watered the stock of the roads 100 per cent. They were guilty of a scaudalous fraud in the construction of the roads. They have never evinced any disposition to do anything for the public benefit, unless it promised greater benefit to the corporation.

Now, if new roads and extensions are to be built, way should they not be put up at public auction and sold as all other rauchises are sold?

There are several points worthy of consideration before the Steinway surrender is allowed to be made complete. Can an entire new line be legally built without inviting bids and competition? Ought any new privileges to be granted to the Manhattan Company without making quite certain that they will not be held to tances, hold fiself responsible for the return bar out other roads over the same routes er saye-keeping of any rejected manuscripts on improved principles? A movement is on foot for a benefit performance for Arihur C. Moreland, late of the "Bittle Jeans" company, who recently met with such an extraordinary accident in Washington. During the company's engagement in that city, it will be remembered, Mr. Moreland was resting one alteracon on a lounge in his rooms in the hotel playing with his periods, a water spaniel. The actor was smoking his pipe and some of the smoke was waited in the lace of the dog, which was in close proximity to his cwh. The animal sheezed violently, and in doing so his front teech struck Mr. Moreland in the left eye, crushing the eyeball. He is now threatened with total blindness. ## "Pepper with Meaf."

San Antonio, Tex., presents in its older sections a pechliar illustration of how cusoms survive long after their causes have ceased. One hundred and sixty-two years ago or thereabouts some fifteen families of Canary Island Spaniards, with a larger num-Lard for pastry should be used as hard as it | ber of Tlascalan Indians, started the old city. Each race brought its local customs, and from their combination resulted the San Antonio customs of to-day. There are open air restaurants on the Plaza des Armes as in Mexican peppers.

At the tables comely Mexican girls act as waiters and serve up "chile con carne," tamales," "enchilades" and other truly native dishes. Observe that the "chile" is mentioned before the "carpe," which is very appropriate indeed, for to an American taste here is much more of it. It was indeed pepper with meat," and not "meat with pepper," as "carne con chile" would mean. Women Lauryers in America. There are now twenty-one law firms in the

wives, and there are about two hundred American ladies who practise law in the courts or manage legal publications. Miss Phœbe Cousins was the first woman admitted to the Washington University at St. Louis, and she has now practised with her father for twenty-one years. Several women make arge incomes by the law. Its True Derivation. It is truly surprising what erroneous ideas many in the trade, for that matter, concerning the true meaning of many terms in gen

eral use. A striking example of this is the word "terne" as applied to tin plate. Usually This costume of soft waterproof cloth is it is understood that this word is derived trem the French one, meaning "dull." This So easy, graceful, light weight and, most of is totally incorrect.
